

US Klinik– Our First LOI

Care Robotics GmbH and ARCUS Klinik Pforzheim

Support Robots in Hospital Operations

Arcus Klinik Pforzheim expresses its intention to collaborate with Care Robotics GmbH to pilot a system designed for internal hospital logistics—including medication transport, laundry

and demonstrations of your integrated robotic solution, we recognize significant efficiency and process reliability in our facility. We hereby express our intent to: evaluate Care Robotics' autonomous transport system during Q4 2025. We will provide detailed data (e.g. transport frequency, route efficiency, staff satisfaction) to support

ongoing assessments of docking, charging infrastructure, and user training.

We are open to further technical and commercial dialogue. We look forward to exploring this advancement of innovative logistics solutions in healthcare.

Statics (Business Plan)
